2. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the problem (1.1) as $\epsilon \rightarrow 0$. In this case, the asymptotic expansion of the solution is obtained in the form of a series in powers of ϵ . The leading term of this expansion is the solution of the problem (1.1) with $\epsilon = 0$, which is a linear problem. The higher-order terms of the expansion are determined by the nonlinearities of the problem. The asymptotic expansion is valid in the region Ω_ϵ for $\epsilon \rightarrow 0$.
